CROWDED STEAMERS CRASH IN DARKNESS

Excursion Boats Collide in the New York Harbor.

SINKING OF VESSELS PREVENTED

Many Women Faint and Two Men Jump Overboard—Numerous people Hurt, but No Lives Are Lost—Craft Badly Damaged.

New York, July 21.—Two crowded excursion steamers were in collision Thursday night in New York harbor off Statent island, imperiling the lives of 1,500 persons, but neither in the crash itself nor in the wild panic which followed, was any one seriously injured.

The vessels were the Perseus, of the Iron Steamboat company, bound for Coney Island with 500 passengers on board, and the Thomas Patten, of the Patten line, bound from Long Branch to New York, carrying 1,000 passengers.

The whistles of the colliding steamers soon brought assistance from boats in the bay, and the frightened passengers were transferred as quickly as possible and brought to this city.

The Perseus and the Patten interlocked and neither sank. Wrecking vessels were sent to the scene.

The lower harbor was covered with a dense fog at the time of the collision, and the two vessels were running at reduced speed. When directly off St. George, Staten Island, the Thomas Patten crashed with terrific force into the port side of the Perseus, smashing the paddle wheel and boxing and tearing away much of the joiner work. The Patten's bow and upper fore decks were badly damaged. The impact was so great that the vessels remained fast together. No effort was made by the Patten to break away, for it was felt that safety from sinking lay in the vessels remaining interlocked.

When the Patten suddenly loomed out of the fog and it was seen that a collision was unavoidable, the passengers on the two vessels became frantic with fear. Just before the crash one man on the Perseus jumped overboard, but was quickly rescued.

The captains and officers were among the passengers in an effort to restore quiet. A hasty examination indicated that neither boat was in immediate danger and the whistles were calling for assistance. The excursion boat Commodore and a Staten island ferryboat ranged alongside, a transfer of passengers was quickly made and all were brought to the city.

During the panic many women fainted and some were bruised, but none seriously.

One of the passengers from the Perseus said he had seen two men jump overboard and he thought both were drowned. There was no confirmation of this, however.

Efforts are being made to tow the disabled vessels toward Brooklyn.

Released on Bond.

Boston, July 21.—On surety furnished by a former schoolmate, Fred H. Bridge, of Arlington, who was arrested Saturday on a charge of using the mails to defraud was released Thursday night. On Saturday Bridge was held in $2,000 bond charged with an offense against the postal laws committed in Boston. On Tuesday he was re-arrested and held in $2,000 additional bail on the charge of committing a similar offense in Cleveland. Both cases have been continued until next Tuesday at which time it is expected that the government will ask for Bridge's removal to Ohio to face charges there.

THOMASVILLE GETS NEW ROAD.

Thomasville, Sparks and Northeastern to Tap Rich Section.

Thomasville, Ga., July 21.—Another new railroad for Thomasville, to be known as the Thomasville, Sparks and Northeastern, is projected to run from Thomasville through Pavo to Sparks in Berry county.

The prime movers in the enterprise are Captain E. M. Smith, president of the Bank of Thomasville, and Dr. K. Frank Harris, president of the Bank of Pavo. This assures the success of the project. Other citizens of Pavo and Thomasville will be interested in the road.

Dr. Harris will be in the city said Captain Smith, and we will immediately begin to get the matters in shape for a charter for the new road. This road will run through one of the richest sections in the state of Georgia.

It will tap a country rich in timber and as good as any to be found for agricultural purposes.

It will give Thomasville another outlet to the north, and will be of benefit to Pavo. The road will connect with the Georgia, Southern and Florida and Nashville and Sparks at Sparks. The new roads that have recently come under the control of the Williams interest will in all probability soon be running directly from Nashville to Augusta.

An inspection of one of the latest maps of Georgia shows that the probable route of the road will be from here to Pavo, then to Adila, in Brooks and then to either Quist or Hempstead in Colquitt, then to Quitp in Berrien and from there to Sparks. This is almost a direct line.

DORSEY IS PLACED ON TRIAL.

Accused of Murder of Curtis Twitty at Gainesville.

Gainesville, Ga., July 21.—The trial of Otis Tucker Dorsey, charged with the murder of Curtis Twitty on the outskirts of the city on the morning of Sunday, April 29, was begun in Hall superior court Thursday morning.

When the case was sounded both sides announced ready and the selection of a jury was at once begun.

Dorsey is represented by Dean & Hobbs and Thompson & Bell. Solicitor Charters is assisted in the prosecution by Colonels J. E. B. Mahaffey, of Jefferson, and F. M. Johnson, of Gainesville.

The defendant is a son of Mrs. Jasper N. Dorsey, while Curtis Twitty was a son of J. N. Twitty, of Twitty bill fame. Both families are prominent and the court room was packed to hear the trial. Owing to the prominence of the parties it has attracted unusual attention.

Murder Follows Card Game.

Charleston, S. C., July 21.—A special from Laurens tells of a tragedy enacted near that place in which Elbert F. Copeland, a prosperous young farmer, was shot and killed and his slayer, G. Wash Hunter, is a fugitive from justice. The two men were members of prominent families and neighbors. They had met with others Wednesday at the home of Lee Hunter and began a game of cards that continued all night. Early this morning a quarrel arose, and it is said by the others that Copeland struck Wash Hunter with his crutch and drew a knife, whereupon Hunter emptied his five-shooter into Copeland, killing him instantly. Hunter made off, and has not been arrested.

The temperature on the streets while the snowballing was in progress was about 85 degrees.

WAR IS DECLARED ON HOLY ROLLERS

Seattle Authorities Resolve to Rid City of Sect.

GLAD SHE SHOT HER BROTHER.

She Says that the Chief Roller, Who Led Her Astray and Who Was Killed for Ruining Her by Her Brother, Was a "Holy Man."

Seattle, Wash., July 21.—In consequence of the killing of George Mitchell by his sister, Ethel, the authorities have resolved to drive the "Holy Rollers" from the city.

The leader of the band in Seattle was Franz Edmund Creffield, who, although a married man and living with his wife, enticed Esther Mitchell to their home. It was to avenge the latter that George Mitchell shot and killed Creffield some weeks ago in Seattle. Mitchell was acquitted on a plea of temporary insanity.

Esther Mitchell resented her brother's act, and she and Creffield's widow, with whom she was on the best of terms, decided upon revenge. It was agreed that the one who got the first opportunity should kill George Mitchell.

The chance came to Esther in a waiting room of the union depot.

George Mitchell was going away and his brother, Perry and Fred were there to see him off. Esther, who had refused up to that time to be reconciled to her brother, was invited to go to the depot and did so. Concealing her real feelings she shook hands with each of her brothers and chatted with them until train time. She walked beside George Mitchell as they all started for the train together, and as they neared the door she stepped close to his side, pressed a revolver against his head and fired. She had concealed the revolver in her coat.

The girl says that the spirit of her dead lover urged her to kill her brother. She says that it was blood atonement, and that the spirit of Creffield has not annoyed her since she killed her brother. Esther admits that she and the widow of the Holy Roller were in conspiracy to avenge his death.

"I am not insane," declared Esther Mitchell. "Before I killed my brother, Mrs. Creffield and myself talked it all over, and we knew that we would be arrested and the law would punish us.

"He," continued Miss Mitchell, speaking of Creffield and in answer to a question, "was a holy man. My brother was of the world, and was defiled. It was right that he should be punished for what he did, and the law set him free."

Mrs. Creffield does not attempt to justify her part in the shooting on the ground of religious training, nor does she insist that the Creffield influence is still alive. She was asked whether the spirit of Joshua had been heard or whether she expected him to return to her.

The "Holy Rollers" got their name from the fact that they frequently roll on the ground when possessed of a religious ecstacy. The sect had its origin in central New York, that prolific mother of strange beliefs from which sprung the Mormons, the Shakers, the Oneida community and the Holy Order of Kneebenders.

Altona, Prussia, July 21.—Augusta Rosenberg, formerly of Seattle, Wash., who was arrested here July 3 on the charge of being engaged in an anarchist conspiracy, has been released. JEROME ADDRESSES LAWYERS.

Georgia Bar Convention Closed Its Session Friday.

Warm Springs, Ga., July 21.—Before the largest audience ever assembled in the pavillion at Warm Springs, District Attorney William Travers Jerome, of New York, read a magnificent paper Thursday upon the subject of "Public Opinion" and was liberally cheered to the echo upon the conclusion.

Indeed, so great was the enthusiasm manifested by his audience that it became necessary that an adjournment of five minutes be taken so that all could personally greet the speaker and shake his hand.

Mr. Jerome did not depart from his printed address in a single instance, but he read with characteristic ease, and its delivery was so graceful and consonant that he had proceeded but a few sentences before the fact that he was reading had been forgotten and his words came as though impromptu and from the heart.

Preceding his address Chairman Price Gilbert of the executive committee announced that Friday, the closing day of the convention, would be full of interesting features, and he urged all the lawyers to remain over. "One of the distinctive features of Friday," he said, "will be an address from that venerable man whom we all love, former Chief Justice Logan E. Bleckley."

Feudists Shot from Cover.

Lexington, Ky., July 21.—A dispatch received here from Sergeant Ivey states that John Thornberry and Richard Hall, leaders of the Hall faction of mountain feudists, were shot from ambush in Floyd county and killed. The men were riding along a lone mountain road when a volley of winchester bullets was fired at them from the mountain side. Their murderers escaped into the mountains. Thornberry was formerly a leader of the Thornberry faction, who for many years have been at feudal warfare with the Halls. Recently Thornberry married in the Hall family, and his clansmen had sworn revenge, claiming that he had betrayed them. Members of both factions are arming themselves, and an outbreak of the feud war is feared. Each side numbers about 40 men.

Louisville Will Entertain Bryan.

Louisville, Ky., July 21.—William J. Bryan will be given a public reception and welcomed home by the Democrats of Louisville and the entire south soon after the eastern Democrats get through welcoming him. A movement has been on foot for some time to make the reception a big event. John W. Vreeland, member of the Democratic state central committee from the fifth district, has charge of the arrangements. It is his intention to invite all the Democrats in the south. The reception is to be held in the armory, which will seat 17,000 people.

Wild Car Ride.

New York, July 21.—Ten passengers on a Kings bridge trolley of the Union Railway company in the Bronx had a wild ride when the car got beyond control of the motorman and for eight blocks tore along Bailey avenue with women and children screaming in fear that they would be killed. In Heath avenue it left the track, tore through a mud pile and hung suspended over the New York Central tracks from which perilous position it was hauled by a wrecking crew. A surgeon from Fordham hospital dressed the injuries of the victims, all of whom will recover.

The sale is to take place before Nov. 1.

Capture Alleged Murderer.

Phoenix, Ariz., July 21.—A dispatch to Governor Jibbey from Southern Arizona sent by Rangers Brooks and Wheeler Thursday announced the capture by them of Quijada who, it is alleged on Tuesday night committed a most heinous murder in Agua Prieta Mex., a few yards south of the international line at Douglas. On Tuesday night, it is charged, Quijada approached the bedside of his wife's father, Marcelino Uribe, cut his throat and then disemboweled him. So expeditiously was the deed accomplished, that Mrs. Quijada, who was in the same room, did not awaken and knew nothing of the crime until next morning. When the sickening sight met her eyes she fainted. Her husband fled and was not found until yesterday. Quijada has worked for the Douglas smelter for three years. No motive is known.

Hartje Divorce Case.

Pittsburg, July 21.—The ventilating of the negro coachman Hooe episode was renewed Friday when court opened for the thirteenth day of the Hartje divorce trial. The respondent, Mrs. Mary Scott Hartje, was called to the stand to deny that she had been intimate with Hooe. Her denial was complete and her eyes blazed as she scornfully said that the deposition made by Hooe was maliciously false. Mrs. Hartje said she was present when the Hooe deposition was taken. She was not cross-examined to any extent by the attorneys for her husband, they reserving the right to cross-examine her later.

DEATH OF MRS. WHITE.

Well Known Woman of Cedar Key Passed Away Thursday Morning.

Cedar Key, July 21.—Mrs E. J. White died early Thursday morning, after an illness of several weeks.

Mrs. White was Miss Mortie Rogers, a daughter of Mr. Henry S. Rogers of Trenton, and had been married about one year. She leaves a devoted husband and a two-weeks-old baby girl to mourn her loss.

The interment took place Friday afternoon in the city cemetery. Rev. Sheffield conducted the funeral service.

COUNCIL ORDERED BRIDGE.

Will Prove Great Convenience to People of East Gainesville.

The City Council has been meeting quite regularly for the past few days, as the equalization of city taxes has been a question which that body has been required to settle.

While the council is kept quite busy in the matter of equalizing taxes, a little time has been found for the transaction of other business, and about the best thing that has been done recently was the order of the council instructing the street committee to have constructed a substantial wooden bridge across Sweetwater branch on South Roper avenue.

This bridge will prove a great convenience to the people of East Gainesville, who have been compelled to go a long distance out of the way to reach places beyond Sweetwater branch.

Party at Hague.

There was an enjoyable gathering, known as a "party," at the home of Mr. and Mrs. J. A. Parrish, Hague, Friday evening.

Mr. and Mrs. Parrish, who are clever and hospitable entertainers, never tire of their friends, and whenever they undertake to do a thing they do it well. This was no exception to the rule.

The evening was passed in music and dancing, and those who felt inclined enjoyed the Terpsichorean art to their heart's content.

At the conclusion of the evening those present made their departure with best wishes for Mr. and Mrs. Parrish.

Saved His Comrade's Life.

"While returning from the Grand Army Encampment at Washington City, a comrade from Elgin, Ill., was taken with cholera morbus and was in a critical condition," says Mr. J. E. Houghland of Eldon, Iowa. "I gave him Chamberlain's Colic, Cholera and Diarrhoea Remedy and believe saved his life. I have been engaged for ten years in immigration work and conducted many parties to the South and West. I always carry this remedy and have used it successfully on many occasions." Sold by all druggists.

MRS. WALCOTT DEAD.

Information Comes Through Mrs. J. M. Graham, Warm Springs, Va.

Mrs. J. M. Graham, who, with her husband, is spending a few weeks at Warm Springs, Va., writes The Sun an interesting letter, in which, among other things, she states that Mrs. A. A. Walcott, a lady well known here and who had many friends, died at her home on July 3. Mrs. Graham did not state where deceased resided, but at any rate she spent several winters here, and was quite popular. She was a niece of Dr. Morgan, who spent several winters here, taking rooms over the old First National Bank. Friends here will regret to learn of her death.

Mrs. Graham says that Mr. Graham is enjoying good health at the springs, which will be gratifying information to his friends here.

Letter to Dr. W. M. Johnson, Gainesville, Fla.

Dear Sir: Mr. N. Avery Delhi, N. Y., had two houses exactly alike, and painted them; one Devoe lead-and-zinc; the other barytes-and-zinc. He paid same price for both paints.

He used six gallons of lead-and-zinc, 12 gallons barytes-and-zinc.

He paid $18 for painting lead-and-zinc, $36 painting barytes-and-zinc.

The total cost of the lead-and-zinc job was $27; the total cost of the barytes-and-zinc job was $54.

He didn't know he was buying barytes; the dealer told him that paint was as good as Devoe.

A fair example of how it generally comes out, when you buy "something just as good." Better go by the name; the name; and the name is Devoe.

Yours truly,
F. W. Devoe & Co.,
New York.

The reform will not be complete until every grocery bill is a pure food bill.

Millions no longer keep a man in the public eye. It is what he does with them.

Cuba has been free for nearly eight years, and it hasn't done her a bit of harm.

The people are anxious to be reassured. Also, concerning the character of the mincemeat.

"Shun soup," says Dr. Osler. Which sentiment will be echoed by every politician who has fallen into it.

A New York specialist says bridge whist is responsible for much of the nervous prostration that is being reported.

After a while, at the present rate of progress, it will be next to impossible for anybody to make money dishonestly.

One hundred and six teachers sailed from Seattle for the Philippines recently. Each will receive $1,200 a year and free transportation going and returning. They are under contract to remain two years.

When men build a new boat and wish to test its strength they turn its prow up stream against the current. They do not let it drift with the tide. So it is in our lives. If we wish to try our strength we must turn our faces to the current and face the tide.

Superstition and distrust, with which all societies known as secret orders were at one time viewed by a large number of people, was happily, long ago dispelled, and today the lodge stands as one of the champions of the home and family. Wherever society has reached a high state of development, secret and fraternal orders have their greatest stronghold.

INDUCE IMMIGRATION.

It is noted from almost all the exchanges throughout the South that there is a great effort being made to induce immigration, and yet we are not making an effort here in this direction. This should not be; for with the many great advantages of Alachua county there is no doubt but that with the proper effort many settlers could be induced to settle with us. In the past this county expended profitably a large sum of money in this direction, and many people came and prospered, and had it not been for the disastrous freeze many more would have come. The State also expended much money in this direction, all of which was of great benefit to the State at large.

Why have these efforts ceased? Is it because we have a sufficiency of people—is it because we do not want settlers? Our answer is in the negative of any such proposition; but, on the contrary, we do need settlers, and we need them badly. Alachua is a large and fertile county, and has an area of 808,400 acres of territory, upon the greater portion of which, by proper cultivation, money can be made by the farmer. The county has ample railroad facilities, the soil is diversified and fertile, and leaving out all the advantages of raising citrus fruits, there are so many other products in the way of annual crops which pay and pay well, that we think that with a proper showing of our advantages that the class of immigration most to be desired will be easily induced to come here and live.

We would suggest, as this county is today in a better financial condition than it has been for many years, that of the surplus accumulation of means, that some of this should be expended in the proper showing of the advantages of the county. Let us have an immigration company who shall take up the matter of a proper advertisement of the resources of the county. Who will be first to step out in the light and assist in this matter?

NOT ABOVE LEARNING.

The United States government has detailed two army officers to travel for a month with one of the largest circuses in the country. It is not an infrequent occurrence for officers to be detailed to schools and colleges, in order to give instructions in military tactices. This time the object is not to teach but to learn. Rustics and city dwellers alike have marveled at the seeming ease with which the trahsportation and maintenance of a great circus in managed. A thousand people, scores of horses, wild animals requiring special conditions of heat, air or food, and a mass of canvas, cordage and other material, both heavy and bulky, are carried from one town to another with fidelity to a schedule prepared long before. In the town at which the next performance is to be given the tent is set up and all other arrangements for entertaining crowds of people are made. Sleeping quarters and regular meals for a thousand men and women are provided. The animals are fed and watered. The money and other valuables are guarded. It may be that the circus will remain in one town two or three days, or the next day may find it many miles away, but whatever the program the men in charge are capable of carrying it out.

An exchange says: "Small men with small purposes do not help to make a town lively and progressive. The man who never contributes to public enterprise or voluntary assists in supporting any of the public enterprises is not worth coaxing to remain in a town, and should he decide to move out it is always a matter of congratulation. It's units and not mere ciphers that count for something. Be a unit."

People who have been eating headcheese will be interested to know that, as revealed by the recent slaughter house investigations at Chicago, it is really a cheap food. It is made up in hundred-pound lots—sixty pounds of hog rind, ground fine, twenty pounds of hog shank, ears, trimmings, half a dozen calves' or pigs' tongues unfit for use otherwise. Added to this is one pound of headcheese seasoning, and three-fourths of a pound of preserver. People who have been indulging in the luxury of headcheese, potted meats, sausage and other widely advertised preparations will peruse these revelations with plessure—that is, if they can keep their stomachs quiet during the process of digesting the news. Truly, one-half the world doesn't know what the other half eats.

Immigrants from the old world are thronging to this country not only faster than they can be assimilated but faster than they can be naturalized and voted.

The Alabama Press Association has selected Hotel Continental, at Atlantic Beach, as the place where the annual outing will be held this year.

Another move for the advancement and upbuilding of the town of Mayo was made when a board of trade was permanently organized.

YOUR HAT

May Be a Stylish One, But It Makes Trouble.

A man usually buys a hat that's "in style," but the modern hat for men has lots to answer for.

Baldheads are growing more numerous every day. Hats make excellent breeding places for the parasitic germs which sap the life from the roots of the hair.

When your hair begins to fall out and your scalp is full of Dandruff it is a sure sign that these countless germs are busily at work.

There is but one way to overcome the trouble and kill the germs—that way is to apply Newbro's Herpicide to the scalp—it will kill the germs and healthy hair is sure to result.

The directors of the Plant City, Arcadia and Gulf Railway announce their intention of immediately extending the line to the southeast. They have determined not to take advantage of the time allowed by their charter and build a few miles at a time, but to push the construction.

A Tragic Finish.

A watchman's neglect permitted a leak in the great North Sea dyke, which a child's finger could have stopped, to become a ruinous break, devastating an entire province of Holland. In like manner Kenneth McIver of Vanceboro, Me., permitted a little cold to go unnoticed until a tragic finish was only averted by Dr. King's New Discovery. He writes: "Three doctors gave me up to die of lung inflammation, caused by a neglected cold, but Dr. King's New Discovery saved my life." Guaranteed best cough and cold cure, at all drug stores. 50c and $1. Trial bottle free.

Mrs. Adolph Buesing, 701 West Third St., Davenport, Iowa, writes: "A severe cold contracted twelve years ago was neglected until it finally grew into asthma. CHILDREN BURN IN FT. VALLEY.

Annie May and Robert Wimbish Lose Their Lives.

Fort Valley, Ga., July 21.—Two children of Mr. and Mrs. R. W. Wimbish, of Savannah, were burned to death in a fire originating from lightning which destroyed the home of their grandfather, Mr. W. G. Jordan.

All the inmates of the house were asleep, and before the fire, which started in a closet in a back room, was discovered it had made such headway that it was impossible to get into the bed room where the two children were sleeping.

Moses Solomon was the first to discover the fire, and hastened to awake Mr. and Mrs. Jordan, doing so barely in time to save their lives.

The two children who lost their lives in the fire had just arrived the day before from their home in Savannah to spend a few weeks with their grandparents. They were the children of Mr. and Mrs. Wimbish, of Savannah and one, Miss Annie May Wimbish, was a young lady 16 years of age, and the other a boy Robert, 6 years of age.

Modest Claims Often Carry the Most Conviction

When Maxim, the famous gun inventor, placed his gun before a committee of judges, he stated its carrying power to be much below what he felt sure the gun would accomplish. The result of the trial was therefore a great surprise, instead of disappointment. It is the same with the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy. They do not publicly boast of all this remedy will accomplish, but prefer to let the users make the statements. What they do claim is that it will positively cure diarrhoea, dysentery, pains in the stomach and bowels and has never been known to fail. For sale by all druggists.

RHEUMATISM

ALMOST AS COMMON IN SUMMER AS IN WINTER.

While the damp, cold, changing weather of Winter intensifies the pains and other disagreeable symptoms of Rheumatism, it is by no means a winter disease exclusively. Through the long months of Summer its wandering pains and twitching nerves are felt by those in whose blood the uric acid, which produces the disease, has accumulated.

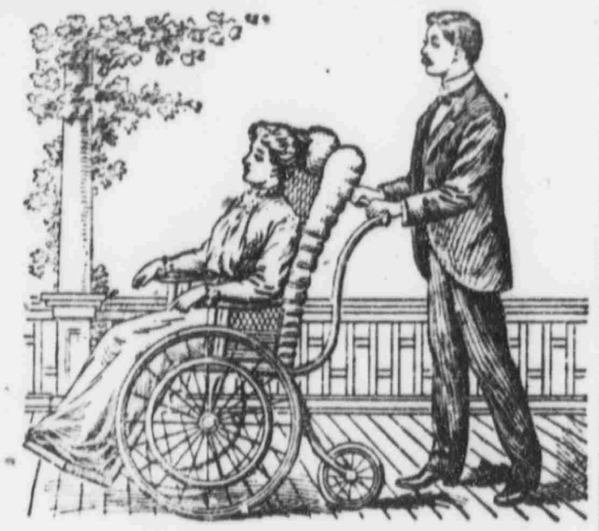
Rheumatism is a disease that involves the entire system. Its primary cause results from the failure of the eliminative organs, the Liver, Kidneys and Bowels, to carry out of the system the urea, or natural refuse matter. This coming in contact with the different acids of the body forms uric acid which is taken up and absorbed by the blood. This acid causes fermentation of the blood, making it sour and unfit for properly nourishing the body, and as this vital stream goes to every nook and corner of the body, the poison is distributed to all parts. The nervous system weakens from lack of rich, pure blood, the skin becomes feverish and swollen, the stomach and digestion are affected, the appetite fails and a general diseased condition of the entire system is the result.

Not only is Rheumatism the most painful of all diseases, with its swollen, stiff joints, throbbing muscles and stinging nerves, but it is a formidable and dangerous trouble. If the uric acid is allowed to remain in the blood, and the disease becomes chronic, chalky deposits form at the joints, and they are rendered immovable and stiff, and the patient left a helpless cripple for life. Every day the poison remains in the system the disease gets a firmer hold. The best time to get rid of Rheumatism is in warm weather; because then the blood takes on new life and the skin is more active and can better assist in the elimination of the poisons. With the proper remedy to force the acid out of the blood, and at the same time build up and strengten the Liver, Kidneys, Bowels and other organs of the body, Rheumatism can be permanently cured. External applications relieve the pain and temporarily reduce the inflammation, and for this reason are desirable, but they cannot have any effect on the disease. The blood is poisoned and the blood must be treated before a cure can be effected.

S. S. S., a remedy made from roots, herbs and barks, is the best treatment for Rheumatism. It goes into the blood and attacks the disease at its head, and by neutralizing the acid and driving it out, and building up the sour blood so it can supply nourishment and strength to every part of the body, it cures Rheumatism permanently. S. S. S. is the only safe cure for the disease; being purely vegetable, it will not injure the system in the least, as do those medicines which contain Potash or some other mineral ingredient. S. S. S. tones up every part of the body by its fine tonic properties. While cleansing the blood of all poisons it builds up the appetite and digestion, soothes the excited nerves, reduces all inflammation, relieves pain and completely cures Rheumatism in every form—Muscular, Inflammatory, Articular or Sciatic. If you are worried with the nagging pains of Rheumatism, do not wait for it to become chronic, but begin the use of S. S. S. and purge the blood of every particle of the poison. Write for our book on Rheumatism, and ask our physicians for any advice you wish. We make no charge for either.

SSS

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.



Last Summer I had a severe attack of Inflammatory Rheumatism in the knees, from which I was unable to leave my room for several months. I was treated by two doctors and also tried different kinds of liniments and medicines which seemed to relieve me from pain for awhile, but at the same time I was not any nearer getting well. One day while reading a paper I saw an advertisement of S. S. S. for Rheumatism. I decided to give it a trial, which I did at once. After I had taken three bottles I felt a great deal better, and I continued to take it regularly until I was entirely cured. I now feel better than I have for years. CHAS. E. GILDERSLEEVE.

TROUBLE BARELY AVERTED.

Negroes and Whites Clash at a Mill Near Moultrie.

Moultrie, Ga., July 21.—A clash between the whites and blacks at the Sumner and Pounds saw mill, near Moultrie, was narrowly averted when Gus Bush made a demand on Superintendent Robinson for a time check which had been denied him under the rules of the company for losing a day without giving notice in advance.

Bush was heavily armed and was accompanied by a dozen other negroes, most of whom were armed and the superintendent was forced to give over the check. When it was delivered to Bush he waved it over his head and all the negroes in the crowd cheered him. This incensed the white laborers, who had been forced to observe the same rules and they went on a strike.

Feeling between the white and negro laborers was very high for several hours, and a number of white men sent into Moultrie for pistols and guns. Finally the white men returned to work on the agreement of the superintendent to discharge the negroes. The sheriff placed Bush and another of the ring-leaders in the affair under arrest.

The remainder of the negroes have been informed that they will be permitted to return to work if they accept the conditions and rules about which the trouble occurred. It developed that the negroes had planned at a meeting during the night to overpower the superintendent and take the time check.
